## **Rescission of Technical Guidance #TG99-001**

**Date:** July 7, 2003

**Rule:** 312 as adopted 7/13/88

---

The Technical Guidance document TG99-001 is hereby rescinded.

**Discussion:** TG99-001 was created in 1999 by the Rules Clarification Committee to interpret and amplify Section 302 in the 1988 version of Rule 312. TG99-001 described in detail that CARB-certified dry abrasive material could be used under specified conditions. The current version of Rule 312 (adopted 7/2/03) both supersedes the 1988 version and eliminates the need for TG99-001 by completely describing when CARB-certified dry abrasive blasting material could be used.
